**Composite Door Collection**

Edition 3

You're Home with Hurst

Make a great first impression with a beautifully designed high-quality composite door. The Composite Collection provides you with an entrance door that not only looks exquisite but is also durable and robust. With such a wide choice of door styles, glazing designs, colours and hardware options to choose from, you're sure to find the perfect door for your home.

Door Maintenance

# Composite Door Benefits

Our composite door is a breakthrough in door technology, combining proven levels of high security with stunning aesthetics. Quite simply, it's a door with superior strength and style.

### Exceptionally Durable

The high-impact Glass Reinforced Polyester (GRP) skin offers exceptional durability and will maintain its appearance against everyday knocks and scratches. Unlike other doors, they don't warp, split or twist.

### Simply Stunning

To complement your home, every door is designed with symmetry and balance in mind. Using modern technology, the detailed embossed woodgrain finish, developed from oak tree grain, creates a beautifully authentic appearance.

### Low Maintenance

Thanks to its water-resistant coating, there is no need to repaint or varnish your door; a quick and easy wipe with a damp and dust-free cloth will keep your door looking brand new. For further details see page 46.

### Safe and Secure

Holding the highest accreditations for quality and security, you can have peace of mind that the door construction, with its rigid polymer subframe, high-density CFC-free polyurethane foam core, integral security board and high impact GRP skin, will keep your property safe and secure.

### High Security Locking Systems

All our composite doors are enhanced with an insurance-approved high security multi-point locking system as standard, ensuring your family and home are fully protected. See page 43 for further details.

### Manufactured to the Highest Standards

Hurst doors are CE marked and fully accredited to meet the criteria of BS:EN 6375, PAS 24:2016 for weather and security performance certification, Q-mark for enhanced security, as well as a Secured by Design option, a police initiative backed by the Home Office Crime Prevention Unit.

### Excellent Insulation

More thermally efficient than a solid timber core composite door, you can be assured your door is keeping the warmth in and the cold out, thereby saving money and reducing emissions. In addition, with such excellent insulation properties, outside noise will be kept to a minimum too.

### Excellent Weatherproofing

Designed with water-resistant polymer composite rails to protect the core, your Glass Reinforced Polyester (GRP) skin door won't suffer from water ingress which can result in skin delamination and other functional problems of some lesser products.

The above accreditations have been awarded to Hurst Plastics Ltd (Hurst Doors).

# Door Collections

Our featured Classic, Cottage and Contemporary Bohemia collections all offer something unique and are available in a variety of colours and styles to suit any home.

**Enclosed  
Mini-blind**

Perfect when added privacy is required.

Mini-blinds have a simple control mechanism to be raised or tilted with one hand. This system uses a magnetic tab rather than a traditional cord so is completely safe to use around children.

The white mini-blind is enclosed between two panes of glass so never requires painting and is protected from dust and damage. This provides a stylish finishing touch to any external door.

# Choose Your Colour

Whether you are looking to make a statement by making your front door bold and bright or you would prefer something more traditional and demure to go with the style of your home, our Premium Sprayed Colour Service provides a vast array of colours to complement your glass designs and hardware options.

In addition, the outer frame of the door can be supplied in white or can be colour matched to your door or, if you really want your door to stand out, why not choose an alternative colour.

Choose from the extensive RAL range of colours and make your door truly unique.

## Standard Colours

## Standard Plus Colours

## Premium Colours

Standard Plus and Premium colours are available at an additional cost. Due to the limitations of printing processes, colour illustrations should be used for guidance only.

## What's Your Inspiration?

If you want your door to be unique but you're unsure what colour to choose, why not take inspiration from the things you love and that surround you.

It could be the new colour you've painted the hallway or you could be inspired by the colours of your favourite football team, treasured car, cherished coat or even a beloved pet.

*Whatever your preference, we have the perfect colour for your door!*

*Your team*

*Your cat*

*Your coat*

*Your car*

# Harmony Glass Collection

Our Exclusive Harmony Collection provides contemporary, etched effect, geometric designs which cleverly feature on both sides of the double-glazed unit to create an elegant and striking three-dimensional effect.

**Harmony Verona**

Face on view

Angled view showing 3D effect

If you're looking for a contemporary style that makes a real statement, our exclusive Harmony Collection features etched effect geometric designs. These are carefully sandblasted onto both sides of a double-glazed unit and then hand-crafted to create a three-dimensional effect, which is both stylish and striking.

The geometric designs, which are reversed on the internal side of the door, ensure a high level of privacy whilst also allowing natural light to flood into your home. In sunlight, these stunning, three-dimensional effect patterns move and refract light beautifully, creating a real focal point for your entranceway.

- ☑ Double glazed sandblasted units, no backing glass required
- ☑ Designed to maximise natural light
- ☑ Easy to clean and maintain
- ☑ Beautiful designs that are available in:
  - Composite Four
  - Cottage XL Rectangle
  - Cottage Long Rectangle
  - Rustic Cottage XL Rectangle
  - Bohemia XL Rectangle
  - Bohemia Long Rectangle
  - Select Long Rectangle

# Glass Designs

A fine selection of hand-crafted traditional and contemporary glass styles designed to maximise natural light and provide the ultimate finishing touch to your door.

- ✓ Outstanding style of glazing
- ✓ Triple and double glazed options
- ✓ Designed to maximise natural light
- ✓ Traditional and contemporary choices
- ✓ Easy to clean and maintain

## Personalise Your Glass

If you have a totally bespoke design in mind or you would like to personalise your door with your favourite photograph, we can take practically any image\* and reproduce it straight onto glass using Direct Digital Glass printing (DDG). Ask for more details!

\*Copyright restrictions apply.

# Safe and Secure

The majority of break-ins are through the front door. Our doors can be upgraded to meet the requirements of Secured by Design and all feature the best locking systems to keep your home and family fully protected.

## Secured by Design

Secured by Design is a flagship UK police initiative supporting the use of 'designing out crime' through the use of high-quality innovative products and processes.

In order to achieve Secured by Design status, the Hurst composite door collection has been rigorously tested and adheres to the organisation's strict standards.

Statistics show that when it comes to burglaries in the UK, front doors are the main source of access. Therefore, they need to be made as secure as possible.

Our Secured by Design upgrade meets the national standard for safer homes and is also recognised by most insurance companies.

The Secured by Design standard upgrade includes:

- ✓ A security cowl if a letterplate is required
- ✓ A safety chain
- ✓ A spyhole
- ✓ Laminated glass if the door is glazed

## Secured by Design

Official Police Security Initiative

Hurst Plastics Ltd (Hurst Doors) is a member of Secured by Design.

## Locking Systems

All of our engineered locking systems meet the highest standards for enhanced security performance.

### Lever Operated Lock

Doors specified with a lever/lever and lever/pad handle are commonly supplied with a Kubu ready multi-point door lock as standard.

This high-performance, multi-point locking system is not only set for smart technology, it also provides the UK's largest hooks and centre deadbolt at 25mm, which makes for greater compression and security on a closed door.

For a smooth precise operation, the hooks are engaged when the handle lever (located halfway up the door) is lifted and then the door is simply locked/unlocked by using the key.

### Slam Lock

This high-performance, multi-point slam lock is PAS 24 tested and generally used in conjunction with 'Pull' handles.

The mechanical self-locking system ensures that the door is securely locked against uninvited entry when simply pulled shut. As soon as the door is closed, the automatic latchbolts are secured to prevent them being forced back. From inside, the latchbolts are retracted and the door opened by using a thumbturn or key.

From outside, the latchbolts are retracted and the door opened by a simple turn of the key. The lock is positioned halfway up the door.

### Heritage Slam Lock\*

The Heritage slam lock will help you achieve a classic door appearance which is both secure and functional.

The Heritage slam lock works in a similar way to the slam lock, although the lock is positioned two-thirds of the way up the door.

Simply by closing the door, the top and bottom latches strike the keep and fully engage to become secure deadbolts.

\*Only available in Liniar profile

## Cylinders

### Standard Cylinder

Meeting the requirements of Secured by Design and PAS 24, all Composite Collection doors come as standard with a Kitemarked euro cylinder which is combined with a cylinder guard to provide a TS007 3 Star security solution.

Made from hardened steel, the cylinder teamed with a cylinder guard is designed to protect against drilling, picking, twisting and bump attacks.

### ABS Ultimate Euro Cylinder Option

The ABS Ultimate 3 Star Diamond Cylinder upgrade option meets the requirements of the British Kitemark, TS007 3 star, Secured by Design and Sold Secure Diamond testing criteria.

Designed to combat against all known methods of attack on a euro cylinder, the ABS Ultimate has built-in "Active Cam" technology with an advanced internal locking system that prevents access to the inner workings of the door bolt if snapped on the outside. The ABS Ultimate by Avocet remains secure after forced entry snapping attacks and, in most cases, will still be operable with the key from the inside.

Given this unprecedented level of security on ABS locks, in the unfortunate event that a burglar was able to gain access to your property by snapping the ABS cylinder, then Avocet will pay £1000\* in compensation to the homeowner.

# Door *Maintenance*

## **Keep your door** *looking great* *for longer*

Your new composite door is extremely low maintenance and is very easy to clean. How often will depend on where you live. For instance, a coastal or industrialised location, or near a busy road, may mean cleaning is required a little more often.

We recommend the following to help you get the very best from your composite door:

### **Cleaning** *your door*

- Wash the door and door frame with warm soapy water and a soft, lint-free cloth to remove grime and atmospheric deposits.
- Never use a pressure washer or steam cleaner.
- Stubborn marks on the door frame may need to be tackled with a specialised PVC cleaner but please ensure you read the cleaning guidelines carefully to ensure suitability.
- Under no circumstances should you use any solvent-based or abrasive cleaners and avoid the use of any adhesives or tack for temporary fixing i.e. For seasonal or other decorations.

### **Maintaining** *your door*

- Once every six months or so, apply a little light engineering oil (such as 3 in 1 oil) on all moving parts of the lock, cylinder and hinges.
- We also recommend that you help protect your door from possible natural thermal distortion by engaging the locking points by simply pulling up the handle each time you shut the door.

With a little care and attention, your composite door should continue to look great for years to come!
